About

Global Med Academy

GlobalMedAcademy is a medical education platform created to help doctors expand their knowledge through structured, accessible, and professionally relevant online programs.

Our programs are designed around clearly organised modules, current medical guidelines, case-based concepts, assessments, and digital learning resources. This allows doctors to continue learning alongside their existing professional responsibilities.

By combining medical knowledge with contemporary approaches to diagnosis, treatment planning, technology, and patient communication, GlobalMedAcademy supports doctors in staying informed and confident in an evolving healthcare environment.

Global Med Academy

About the **Fellowship**

The Fellowship in Family Medicine by GlobalMedAcademy is a 12-month, fully online advanced fellowship program for doctors who want to build comprehensive knowledge in first-contact and continuing care.

Family medicine focuses on the care of individuals and families across age groups. This program covers common medical conditions, chronic disease management, preventive care, women's health, child and adolescent health, mental health, geriatrics, rational prescribing, referrals, and practice communication.

The curriculum is designed to help doctors improve their academic understanding of family medicine and apply a broader, more organized approach to patient care.

Program **Highlights**

12-Month Advanced Online Fellowship

A carefully organised academic journey delivered entirely online.

Comprehensive Family Medicine Coverage

Covers adult care, child health, women's health, adolescent health, geriatrics, mental health, and preventive medicine.

First-Contact Care Approach

Builds understanding of how family physicians assess common symptoms, identify red flags, and decide next steps.

Chronic Disease Management

Covers diabetes, hypertension, asthma, obesity, thyroid disorders, cardiovascular risk, and long-term follow-up principles.

Global Med Academy

Sample Certificate

Certificate Awarded Upon Successful Completion

The certificate recognises the learner's successful completion of the program curriculum, assessments, and final evaluation requirements.
