About Doctyn

Doctyn Academy is India's fastest-growing medical ed-tech platform built to help doctors learn smarter, train better, and grow faster.

Created by clinicians, our programs focus on structured clinical thinking, practical exposure, and mentorship that directly improve decision-making in real clinical settings.

We bridge the gap between traditional medical education and modern healthcare through:

- Flexible online learning
- Hospital-based training
- Expert-led mentorship
- Global clinical frameworks

Our goal is to build doctors who are confident, capable, and ready for real-world practice.

About the **Fellowship**

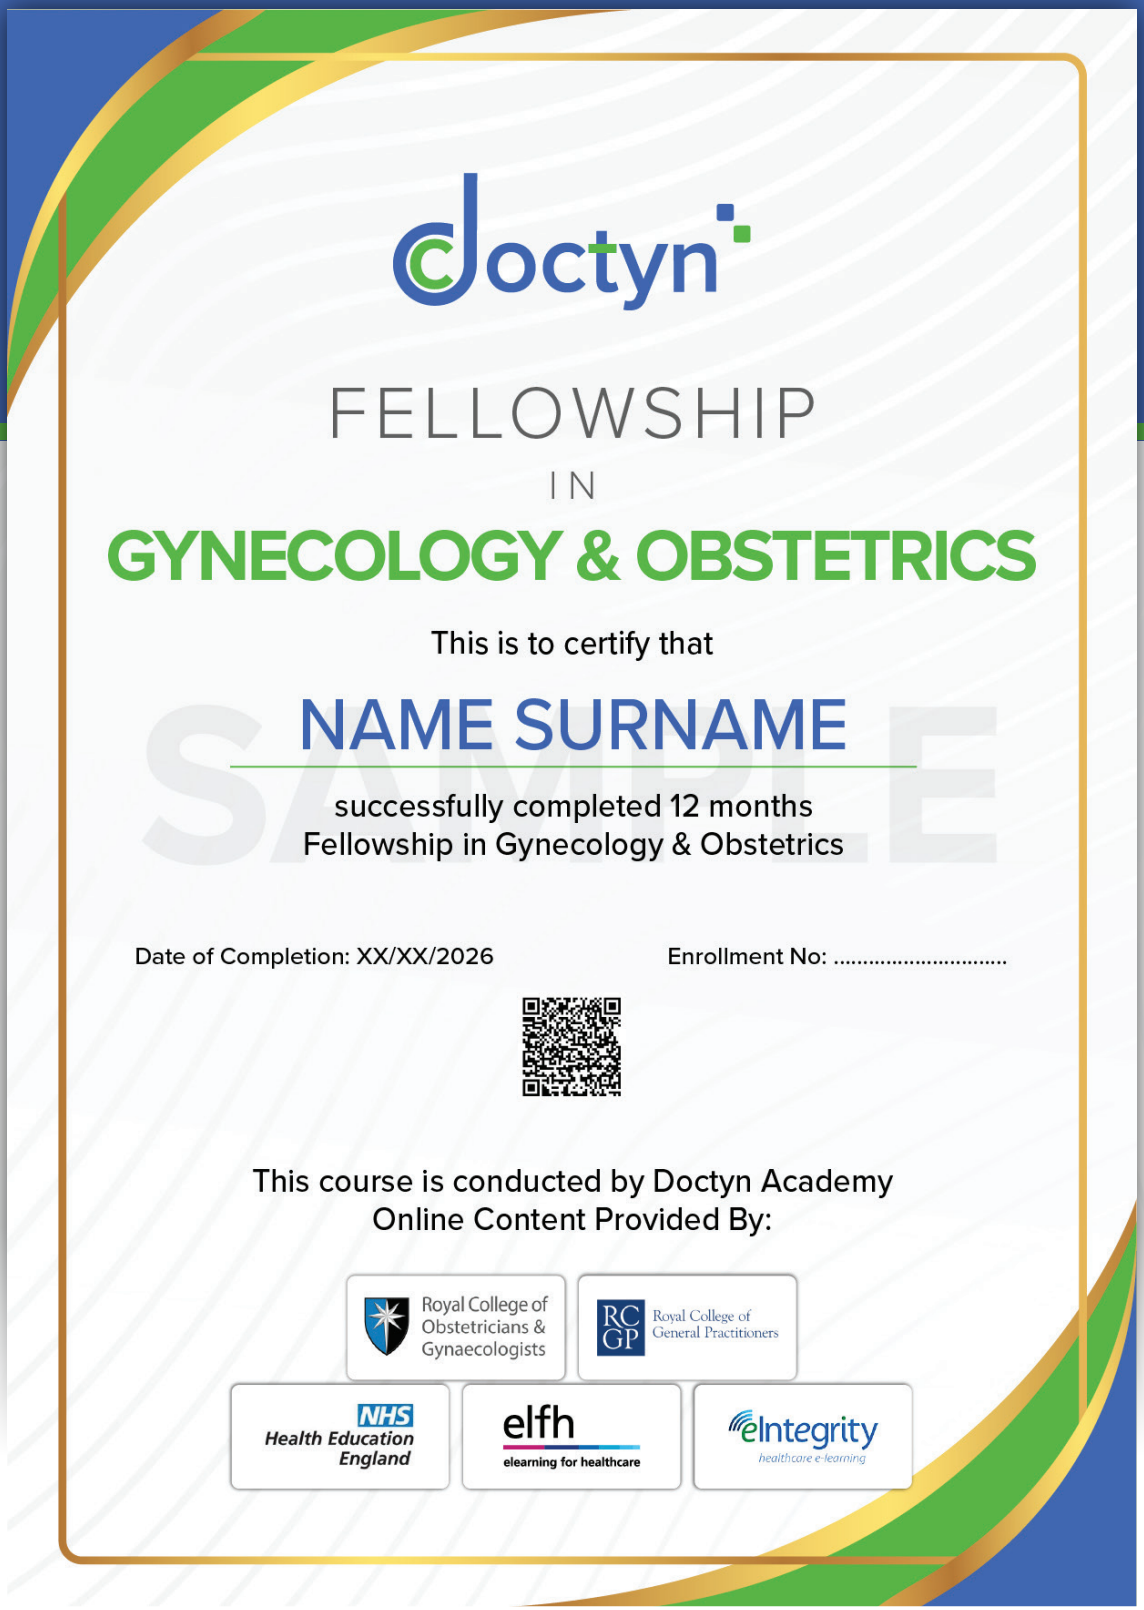

This 12-month hybrid fellowship combines 9 months of structured online learning with 3 months of hospital-based training, designed to help doctors confidently manage women's health across OPD, inpatient, and emergency settings.

Women's health requires timely decisions, structured evaluation, and early identification of risk. This program helps you approach these situations with clarity and confidence.

You will learn how to:

- 12-Month Hybrid Fellowship — 9 Months Online + 3 Months Hospital Training
- Daily Clinical Exposure to OPD, Labour Room & Antenatal Wards
- Supervised Procedural Training — Pap Smear, IUCD, Episiotomy
- OB-GYN Protocols, Emergency Stabilisation & CTG-Based Intrapartum Care
- Logbook-Based Evaluation & Doctyn Academy Fellowship Certification

Sample Certificate
