About

Global Med Academy

GlobalMedAcademy is a medical education platform created to help doctors expand their knowledge through structured, accessible, and professionally relevant online programs.

Our programs are designed around clearly organised modules, current medical guidelines, case-based concepts, assessments, and digital learning resources. This allows doctors to continue learning alongside their existing professional responsibilities.

By combining medical knowledge with contemporary approaches to diagnosis, treatment planning, technology, and patient communication, GlobalMedAcademy supports doctors in staying informed and confident in an evolving healthcare environment.

About the **Fellowship**

The Fellowship in Internal Medicine is a 12-month, fully online advanced fellowship program for doctors who want to build comprehensive knowledge in adult medicine.

Internal medicine focuses on the evaluation, diagnosis, and medical management of adult patients across a wide range of conditions. This program covers symptom-based assessment, investigation interpretation, cardiology, respiratory medicine, gastroenterology, nephrology, endocrinology, infectious diseases, neurology, rheumatology, geriatrics, medical emergencies, preventive medicine, rational prescribing, and patient communication.

The curriculum is designed to help doctors improve their academic understanding of internal medicine and apply a broader, more organised approach to adult patient care.

Program **Highlights**

Comprehensive Internal Medicine Coverage

Covers cardiology, respiratory medicine, gastroenterology, nephrology, endocrinology, neurology, infectious diseases, geriatrics, and medical emergencies.

Symptom-Based Medical Approach

Builds understanding of common presentations such as fever, chest pain, breathlessness, edema, syncope, headache, jaundice, abdominal pain, and altered consciousness.

Investigation Interpretation

Covers CBC, LFT, RFT, electrolytes, ABG, chest X-ray, ultrasound abdomen, CT brain basics, ECG fundamentals, and interpretation-based decision-making.

Medical Emergencies and Critical Care Concepts

Includes shock, ACS, hypertensive emergencies, GI bleed, poisoning, oxygen therapy, NIV principles, ventilator basics, triage, and monitoring concepts.

Case-Based Internal Medicine Learning

Uses applied medical scenarios to connect symptoms, investigations, diagnosis, treatment planning, monitoring, follow-up, and referral decisions.

Global Med Academy

Sample Certificate

Certificate Awarded Upon Successful Completion

The certificate recognises the learner's successful completion of the program curriculum, assessments, and final evaluation requirements.

SAMPLE

Curriculum
Overview

Global Med Academy

Course Level: Advanced

Module 1 Foundations of Internal Medicine

Role of physician, evidence-based practice, clinical documentation, rational prescribing.

Module 2 Symptom-Based Clinical Approach

Approach to fever, chest pain, breathlessness, edema, syncope, headache, jaundice, abdominal pain & unconsciousness.

Module 3 Investigation Interpretation

CBC, LFT, RFT, electrolytes, ABG, chest X-ray, USG abdomen, CT brain basics

Module 4 Cardiology for Physicians

Hypertension, ACS, arrhythmias, heart failure, ECG interpretation.

Module 5 Respiratory & Critical Care

Asthma, COPD, pneumonia, TB, oxygen therapy, NIV, ventilator basics.

Module 6 Gastroenterology & Hepatology

GI bleed, pancreatitis, hepatitis, cirrhosis, ascites, portal hypertension.

Module 7 Nephrology & Electrolytes

AKI vs CKD, fluid therapy, sodium & potassium disorders, dialysis fundamentals.

Assessment & **Certification**

Global Med Academy

01

Assessment and Certification

The Fellowship in Internal Medicine includes online assessments designed to evaluate understanding across the 12-month curriculum.

02

Module Assessments

- Module-wise quizzes
- Knowledge checks
- Case-based questions
- Applied decision-making exercises

03

Final Evaluation

Learners will complete a comprehensive online assessment covering the major concepts included in the program.

04

Passing Criteria

Participants must:

- Complete all required learning modules
- Submit the required assessments
- Achieve the prescribed minimum overall score
- Successfully complete the final evaluation

05

Certification

Upon successful completion, participants will receive a Fellowship in Internal Medicine Certificate from Global Med Academy.

Global Med Academy

Eligibility

MBBS, MD, MS, DNB or FMGE Graduates

Duration & **Delivery**

Duration : 12 Months

Mode : 100% Online

Format : Structured digital learning

Program **Benefits**

Complete Digital Access

Access organised modules, learning resources, and assessments through the online platform.

Flexible Learning Schedule

Progress through the program alongside your existing professional responsibilities.

Comprehensive Internal Medicine Understanding

Build knowledge across symptom based assessment, investigation interpretation, adult medical conditions, and system-wise medicine.

Case-Based Medical Decision-Making

Strengthen your approach to diagnosis, treatment planning, monitoring, follow-up, and referral decisions through applied medical scenarios.
